New Trends in Algebraic Geometry (London Mathematical Society Lecture Note Series)

New Trends in Algebraic Geometry (London Mathematical Society Lecture Note Series)

This book is the outcome of the 1996 Warwick Algebraic Geometry EuroConference, containing 17 survey and research articles selected from the most outstanding contemporary research topics in algebraic geometry. Several of the articles are expository: among these a beautiful short exposition by Paranjape of the new and very simple approach to the resolution of singularities; a detailed essay by Ito and Nakamura on the ubiquitous A,D,E classification, centred around simple surface singularities; a discussion by Morrison of the new special Lagrangian approach to giving geometric foundations to mirror symmetry; and two deep, informative surveys by Siebert and Behrend on Gromow-Witten invariants treating them from the point of view of algebraic and symplectic geometry. The remaining articles cover a wide cross-section of the most significant research topics in algebraic geometry. This includes Gromow-Witten invariants, Hodge theory, Calabi-Yau 3-folds, mirror symmetry and classification of varieties.

From reader reviews:

Charles Carter:

This book untitled New Trends in Algebraic Geometry (London Mathematical Society Lecture Note Series) to be one of several books that best seller in this year, here is because when you read this publication you can get a lot of benefit in it. You will easily to buy this particular book in the book store or you can order it via online. The publisher of the book sells the e-book too. It makes you more easily to read this book, because you can read this book in your Smart phone. So there is no reason to you to past this guide from your list.

Robert Aviles:

Spent a free the perfect time to be fun activity to perform! A lot of people spent their free time with their family, or their own friends. Usually they accomplishing activity like watching television, about to beach, or picnic inside the park. They actually doing same every week. Do you feel it? Do you need to something different to fill your own personal free time/ holiday? Could be reading a book is usually option to fill your cost-free time/ holiday. The first thing that you will ask may be what kinds of guide that you should read. If you want to try look for book, may be the e-book untitled New Trends in Algebraic Geometry (London Mathematical Society Lecture Note Series) can be good book to read. May be it might be best activity to you.

Benjamin King:

As we know that book is vital thing to add our expertise for everything. By a e-book we can know everything you want. A book is a pair of written, printed, illustrated as well as blank sheet. Every year was exactly added. This book New Trends in Algebraic Geometry (London Mathematical Society Lecture Note Series) was filled in relation to science. Spend your free time to add your knowledge about your science competence. Some people has various feel when they reading some sort of book. If you know how big selling point of a book, you can feel enjoy to read a e-book. In the modern era like currently, many ways to get book which you wanted.

Irvin Ashbaugh:

Reserve is one of source of knowledge. We can add our knowledge from it. Not only for students and also native or citizen have to have book to know the up-date information of year for you to year. As we know those textbooks have many advantages. Beside we add our knowledge, also can bring us to around the world. By the book New Trends in Algebraic Geometry (London Mathematical Society Lecture Note Series) we can take more advantage. Don't you to be creative people? For being creative person must choose to read a book. Simply choose the best book that acceptable with your aim. Don't become doubt to change your life with that book New Trends in Algebraic Geometry (London Mathematical Society Lecture Note Series). You can more pleasing than now.
