FIFA, like other sports governing bodies, has been accused of corruption and lack of transparency. It has, however, recently decided to initiate reforms. A group of experienced independent governance experts and stakeholders has been asked to oversee the reform process. This group, the Independent Governance Committee (IGC), has managed above all to introduce independent supervisors, investigators and judges. Yet, the reform process is not finished. Several former IGC Members give in this book a fascinating account of the workings of FIFA, the unknown giant of the football world.
