In *The Other Side of Truth*, filmmaker Paul Kimball crosses the Rubicon of the imagination to explore the idea that what we call the 'paranormal' is actually a form of artistic expression created by an advanced non-human intelligence to inspire us to think about who we are, where we have been, and where we are going. Using his own journey of discovery as the starting point, Kimball presents the 'other side of truth' - the world not as we have been told it is, but as we are being encouraged to imagine that it could become.
