Engaging All Families: Creating a Positive School Culture by Putting Research Into Practice Steven M. Constantino

Families are a child's first and best teachers. A significant amount of research exists that strongly links the engagement of families in the educational lives of their children as a strong foundation to the successful achievement of all students. Educators cannot expect total engagement and high standards from students if both families and schools cannot form powerful alliances to guide those students to academic and lifelong success.

Putting research into practice remains one of the most significant barriers to engaging families with schools. School leaders, already stretched thin, struggle to carve out the time and energy necessary to pour through research and create programs to promote family engagement within their school and community. As principal of a large, comprehensive, and diverse high school, Constantino solves this dilemma by providing a step-by-step process for practitioners to create family engagement programs at all levels.

Engaging All Families provides a summary of research that acts as a foundation upon which the practitioner's tools are crafted. Readers are given the resources necessary to assess their present level of family engagement and the ideas, strategies, suggestions, programs, practices, policies, and procedures to implement a wide variety of customized family engagement programs. Numerous resources and references are also included.

As a successful school administrator and nationally known expert in the field of family and community engagement, Steven Constantino builds the bridge from research to practice with *Engaging All Families*, and provides the information that allows all schools to become family friendly.
