In the Kacch: A Memoir of Love and Place Kevin McGrath

This personal narrative about life in a remote desert region of Western India tells of how love of place and love of person find their equilibrium in a world far removed from modernity. Yet this small, distant land of kingship and pastoral life is rapidly being eroded by the new India of commerce and industrialization. The author describes how an ancient society is transformed by the culture of consumption where the lyrical beauty of balance, exchange and loyalty is translated into a single market economy. The people and places of post-Partition Kacch, where even the land and value systems of a lately independent India now appear in a nostalgic light, are described in detail. This is a record of private emotion and physical terrain, of traditions and of profound social practice.
