## **Discourse on Civility and Barbarity** Timothy Fitzgerald

In recent years scholars have begun to question the usefulness of the category of religion to describe a distinctive form of human experience and behavior. In his last book, *The Ideology of Religious Studies* (OUP 2000), Timothy Fitzgerald argued that religion was not a private area of human existence that could be separated from the public realm and that the study of religion as such was thus impossibility. In this new book he examines a wide range of English-language texts to show how religion became transformed from a very specific category indigenous to Christian culture into a universalist claim about human nature and society. These claims, he shows, are implied by and frequently explicit in theories and methods of comparative religion. But they are also tacitly reproduced throughout the humanities in the relatively indiscriminate use of religion as an a priori valid cross-cultural analytical concept, for example in historiography, sociology, and social anthropology. Fitzgerald seeks to link the argument about religion to the parallel formation of the non-religious and such dichotomies as church-state, sacred-profane, ecclesiastical-civil, spiritual-temporal, supernatural-natural, and irrational-rational. Part of his argument is that the category religion has a different logic compared to the category sacred, but the two have been consistently confused by major writers, including Durkheim and Eliade. Fitzgerald contends that religion imagined as a private belief in the supernatural was a necessary conceptual space for the simultaneous imagining of secular practices and institutions such as politics, economics, and the Nation State. The invention of religion as a universal type of experience, practice, and institution was partly the result of sacralizing new concepts of exchange, ownership, and labor practices, applying scientific rationality to human behavior, administering the colonies and classifying native institutions. In contrast, shows Fitzgerald, the sacred-profane dichotomy has a different logic of use.

#### **Jonas Jones:**

As we know that book is important thing to add our information for everything. By a publication we can know everything we want. A book is a group of written, printed, illustrated or even blank sheet. Every year ended up being exactly added. This publication Discourse on Civility and Barbarity was filled with regards to science. Spend your spare time to add your knowledge about your science competence. Some people has distinct feel when they reading a book. If you know how big good thing about a book, you can really feel enjoy to read a reserve. In the modern era like now, many ways to get book that you just wanted.

#### **Robin Almeida:**

As a college student exactly feel bored for you to reading. If their teacher inquired them to go to the library or even make summary for some guide, they are complained. Just minor students that has reading's heart and soul or real their passion. They just do what the professor want, like asked to go to the library. They go to generally there but nothing reading significantly. Any students feel that looking at is not important, boring as well as can't see colorful photographs on there. Yeah, it is to become complicated. Book is very important for yourself. As we know that on this period, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore this Discourse on Civility and Barbarity can make you experience more interested to read.

#### **Diane Merryman:**
