“[John Naisbitt’s] vision of the world’s economy has the mark of genius.” —*Minneapolis Star Tribune*

Internationally-renowned futurist and bestselling author John Naisbitt is back with *China’s Megatrends*, the most comprehensive look at the present and future of China and the transformation that is reshaping its economic, political, and social systems. Since publishing the enormously popular *Megatrends*—a *New York Times* bestseller for two years that has been published in 57 countries—John Naisbitt has become the most respected and well-known prognosticator of global trends. To write *China’s Megatrends*, Naisbitt and wife Doris were granted unprecedented access by the Chinese government to all aspects of the country and its social model. Using the same techniques of information gathering and analysis as *Megatrends*, the Naisbitts present a prescient and unique perspective on the emergent global power and its role in the future of globalization.
