World War II laid the groundwork for much of the international system that exists today, especially in the Pacific Rim. This brief but comprehensive survey of the War in the Pacific incorporates both United States and Japanese perspectives, providing a global approach to the Asian theater of the conflict. Drawing on decades of new scholarship and written in an engaging, narrative style, this book traces United States-Japanese relations from the late nineteenth century to the war's end in 1945. It covers every aspect of the war, and gives special attention to ongoing historical debates over key issues. The book also provides new details of many facets of the conflict, including expansionism during the 1930s, events and policies leading up to the war, the importance of air power and ground warfare, military planning and strategic goals, the internment of Japanese-Americans in the U.S., Allied plans and disputes over Russian participation, the decision to drop the atomic bomb, and conditions for surrender.
