Internet social en Chile: una etnografía de la apropiación de TIC (Spanish Edition) Pedro Reyes García

Las tecnologías de la información y comunicación (TIC) forman parte de la vida cotidiana de los ciudadanos en la sociedad contemporánea, tanto es así que su uso se realiza la mayoría de la veces en forma mecánica.

Sin embargo, dicho uso es el resultado de una serie de experiencias en las que el contexto social juega un rol fundamental.

En este libro el autor nos ofrece una reflexión sobre la complejidad del proceso de integración de Internet en la vida diaria, presentado aquí como una apropiación, que considera las múltiples dimensiones que están en juego: psicológicas, sociales, culturales y políticas.

Aborda la experiencia desde los centros de acceso comunitario; no obstante, el mismo proceso podría ser estudiado a partir del marco teórico que aquí se propone para comprender, por ejemplo, el uso de Internet móvil, de los tablets o el de las nuevas aplicaciones que aparecen día a día.
