Present this quick, effective method for assessing and managing common medical conditions! The central tool of this text is the decision tree, a simple flowchart that helps students quickly determine the optimal massage therapy approach for specific medical conditions. A Decision Tree is included for each of the more than 50 conditions discussed in the book, with massage considerations listed for numerous additional conditions in brief. Also unique to this text are questions therapists can ask clients during the interview process to help the therapist understand not just the medical condition, but how it presents in a particular client.
