Low cost competitors, who offer “good enough” products and services at very attractive prices, are currently significantly impacting the businesses of many leading companies, and some are starting to “move up” to challenge the traditional companies in their core markets. It’s only a matter of time before most companies will feel the pressure from these aggressive, cut-price competitors. *Beating Low Cost Competition* offers a step-by-step structured approach to help executives in traditional companies with premium brands think through the options for responding to their low cost rivals and select the most appropriate strategy to win in their chosen markets.
