## **Global Change: Interviews with Leading Climate Scientists (SpringerBriefs in Earth System Sciences)**

Georg Götz

Seven interviews with leading climate scientists cover both fundamental research (climate modeling, global warming, sea level change, melting of the ice caps, natural hazards) and impact assessment (adaption, mitigation, economic impacts and costs of climate change). Experts on different aspects of the topic explain their own field and give their opinion on general questions concerning climate change. The goal is to provide the reader with first-hand information on the current state of climate research.
