## 29th European Strabismological Association meeting Jan-Tjeerd de Faber

A compilation of authoritative research, this book outlines developments in the fields of eye surgery, vision screening, ophthalmology, and related disciplines. It covers a number of important problems associated with strabismology, including amblyopia, botulinum toxin, Brown's syndrome, and congenital fibrosis syndrome. In addition, it explores new methods and techniques, giving a complete overview of the hot topics in strabismology for strabismologists, pediatric ophthalmologists, and orthoptists. It includes a history of strabismology by Guner von Noorden.
