Exploring Nonfiction with Young Learners Darla Miner, Jill Zitnay

Exploring Nonfiction with Young Learners explores the four basic nonfiction structures that the youngest learners are most likely to encounter: descriptive, recount/collection, procedural, and explanatory texts. This book also includes information to help teach four, more complex structures that younger readers sometimes encounter during read-alouds: comparison, response, causation/cause and effect, and persuasive genres.

This book is organized to help plan lessons using each type of nonfiction structure. Strategies and suggestions for activities to use before, during and after reading are included. Templates and graphic organizers are also provided in order to facilitate planning, and offer additional resources. Detailed information about each text structure as well as mentor texts to illustrate each type is included. Text structures, as well as text access features, are defined and located in easy reference charts. Whole class and small group planning ideas are included throughout the book in order to allow for differentiation. Additionally, assessment ideas, sample think-alouds, lesson planning templates, and sample lessons with completed graphic organizers are included for each text structure.
