The Art of Strategic Planning for Information Technology Bernard H. Boar

A revision of the bestselling book that shows IT departments how to take on new challenges

As technology becomes more mainstream and accessible, companies must develop new ways to use their IT resources in order to compete. In this extensive revision, IT expert Bernard Boar provides a methodology that shows readers how to use IT as a competitive business asset. He tackles the latest challenges facing IT departments over the next several years, including how to devise a complete strategy to make the department more effective and how to choose the best strategy framework for a company. Boar also shows how technologies like e-commerce, data warehousing, architectures, and Java can be used to make a business more competitive.
