Game Theory and Mechanism Design: 4 (IISc Lecture Notes Series) Y Narahari

This book offers a self-sufficient treatment of a key tool, game theory and mechanism design, to model, analyze, and solve centralized as well as decentralized design problems involving multiple autonomous agents that interact strategically in a rational and intelligent way. The contents of the book provide a sound foundation of game theory and mechanism design theory which clearly represent the “science” behind traditional as well as emerging economic applications for the society.

The importance of the discipline of game theory has been recognized through numerous Nobel prizes in economic sciences being awarded to game theorists, including the 2005, 2007, and 2012 prizes. The book distills the marvelous contributions of these and other celebrated game theorists and presents it in a way that can be easily understood even by senior undergraduate students.

A unique feature of the book is its detailed coverage of mechanism design which is the art of designing a game among strategic agents so that a social goal is realized in an equilibrium of the induced game. Another feature is a large number of illustrative examples that are representative of both classical and modern applications of game theory and mechanism design. The book also includes informative biographical sketches of game theory legends, and is specially customized to a general engineering audience.

After a thorough reading of this book, readers would be able to apply game theory and mechanism design in a principled and mature way to solve relevant problems in computer science (esp, artificial intelligence/machine learning), computer engineering, operations research, industrial engineering and microeconomics.

From reader reviews:

Corey Valenzuela:

The book Game Theory and Mechanism Design: 4 (IISc Lecture Notes Series) gives you the sense of being enjoy for your spare time. You may use to make your capable much more increase. Book can to be your best friend when you getting pressure or having big problem along with your subject. If you can make reading through a book Game Theory and Mechanism Design: 4 (IISc Lecture Notes Series) to be your habit, you can get far more advantages, like add your capable, increase your knowledge about many or all subjects. You are able to know everything if you like open up and read a book Game Theory and Mechanism Design: 4 (IISc Lecture Notes Series). Kinds of book are several. It means that, science publication or encyclopedia or some others. So , how do you think about this e-book?

Thomas Rasmussen:

The actual book Game Theory and Mechanism Design: 4 (IISc Lecture Notes Series) will bring that you the new experience of reading some sort of book. The author style to clarify the idea is very unique. When you try to find new book to study, this book very acceptable to you. The book Game Theory and Mechanism Design: 4 (IISc Lecture Notes Series) is much recommended to you to learn. You can also get the e-book from the official web site, so you can easier to read the book.

Princess Bequette:

Are you kind of stressful person, only have 10 or 15 minute in your day to upgrading your mind expertise or thinking skill also analytical thinking? Then you are experiencing problem with the book when compared with can satisfy your small amount of time to read it because this all time you only find reserve that need more time to be read. Game Theory and Mechanism Design: 4 (IISc Lecture Notes Series) can be your answer because it can be read by you actually who have those short time problems.

Ida Johnson:

Reading a book being new life style in this calendar year; every people loves to learn a book. When you read a book you can get a wide range of benefit. When you read ebooks, you can improve your knowledge, due to the fact book has a lot of information in it. The information that you will get depend on what types of book that you have read. If you wish to get information about your study, you can read education books, but if you act like you want to entertain yourself read a fiction books, this kind of us novel, comics, as well as soon. The Game Theory and Mechanism Design: 4 (IISc Lecture Notes Series) will give you a new experience in reading through a book.
