The Laboratory Zebrafish (Laboratory Animal Pocket Reference) Claudia Harper, Christian Lawrence

Like other books in the *Laboratory Animal Pocket Reference Series*, this guide covers all aspects pertaining to the use of these organisms including their basic biology, humane care and management, husbandry, life support systems, regulatory compliance, technical procedures, veterinary care, and water quality management.

In the relatively brief span of only a few decades, the zebrafish has gone from being mainly a hobby fish to a mainstream model animal employed by scientists to study everything from stem cells to the basis of behavioral changes induced by drug addiction. This rapid advance has been fueled largely by numerous and impressive advances in technology, along with detailed characterization of the animal on a genetic and molecular level. These developments have allowed scientists to leverage the many advantages of the zebrafish system to address many important questions in biology and human genetics and disease.

However, there are few accepted and established standards for husbandry, management, and care for the fish in laboratory settings and even fewer comprehensive and constantly reliable resources. To this end, the goal of this handbook is to provide managers, veterinarians, investigators, technicians, and regulatory personnel with a concise yet thorough reference on zebrafish biology, care, husbandry, and management.

The aim of the book is not to set standards, but rather to arm those working with the fish with scientifically grounded principles and fundamental information that can be used to design sound fish care programs. This handbook is organized into seven chapters:

- Biology
- Husbandry
- Life Support Systems
- Management
- Veterinary Care

Experimental Methodology Resources

The final chapter, *Resources*, provides the zebrafish user with lists of sources of additional information on the zebrafish model, as well as key references, professional organizations, and suppliers of equipment and supplies used in zebrafish husbandry and care.

From reader reviews:

Ruth Irizarry:

Hey guys, do you want to find a new book to study? Maybe the book with the concept The Laboratory Zebrafish (Laboratory Animal Pocket Reference) suitable to you? Typically the book was written by famous writer in this era. The actual book entitled The Laboratory Zebrafish (Laboratory Animal Pocket Reference) is the one of several books in which everyone reads now. This kind of book was inspired a lot of people in the world. When you read this publication you will enter the new dimensions that you ever know ahead of. The author explained their concept in the simple way, therefore all of people can easily be aware of the core of this guide. This book will give you a lot of information about this world now. To help you see the represented of the world in this book.

Dale Winsett:

The Laboratory Zebrafish (Laboratory Animal Pocket Reference) can be one of your nice books that are good ideas. We all recommend that straight away because this reserve has good vocabulary that could increase your knowledge in vocabulary, easy to understand, bit entertaining however delivering the information. The copy writer giving his/her effort that will put every word into satisfaction arrangement in writing The Laboratory Zebrafish (Laboratory Animal Pocket Reference) although doesn't forget the main position, giving the reader the hottest and based confirmed resource facts that maybe you can be considered one of it. This great information may draw you into brand-new stage of crucial considering.

Isabel McNeal:

Don't be worry for anyone who is afraid that this book can fill the space in your house, you can have it in e-book method, more simple and reachable. This kind of The Laboratory Zebrafish (Laboratory Animal Pocket Reference) can give you a lot of good friends because by you taking a look at this one book you have factor that they don't and make an individual more like an interesting person. This book can be one of one step for you to get success. This reserve offer you information that might be your friend doesn't know, by knowing more than other make you to be great people. So, why hesitate? Let me have The Laboratory Zebrafish (Laboratory Animal Pocket Reference).

Ruth Lynch:

That book can make you to feel relax. This kind of book The Laboratory Zebrafish (Laboratory Animal Pocket Reference) was bright colored and of course has pictures on there. As we know that book The Laboratory Zebrafish (Laboratory Animal Pocket Reference) has many kinds or style. Start from kids until adolescents. For example Naruto or Private investigator Conan you can read and think that you are the character on there. So, not at all of book are generally make you bored, any it makes you feel happy, fun and chill out. Try to choose the best book in your case and try to like reading that.
