Nostradamus, The Man Who Saw Through Time Lee McCann

THE RICH, ACTIVELY FULFILLED LIFE of the French prophet, Michel de Nostradame, is the story of genius not only in its rarest but its most modern form. His ability foreshadowed a hope, now gaining a first hearing in this our day, that science may, in some not too remote tomorrow, discover principles of mental forces which will permit every man to realize within himself a reflection of the powers of Nostradamus. Many prophets have crossed the brightly lighted stage of history and paused to utter some astounding bit of prescience. But they are seldom remembered for more than a single episode, some ray of strange illumination that for a moment spotlighted the fate of a throne or a battle. Actually there exist but two written documents of prophecy which have pictured a grand-scale continuity of history, and unfolded a tapestry of world futures. One of these is, of course, the mighty word of Scripture. The other is that cryptic romaunt of Europe's fate, the Centuries, written by Nostradamus, Provençal troubadour of destiny.
